

## Balloon Specifications - Sizes, Volumes, Weight

BELBAL balloons are available in different sizes. In order to guarantee an optimum and consistent performance of the balloon, BELBAL controls the full production process, including latex pre-vulcanisation.

## BELBAL Balloon Specifications

Balloon Size	Diameter inch	Diameter Centimeter	Volume Liter	Weight Gram
D5	5"	12 cm	1 L	1 gr
D11	11"+	31 cm	14 L	3,7 gr
B75	9"	23 cm	7 L	2 gr
B85	10,5"	27 cm	10 L	2,7 gr
B95	11"	28 cm	12 L	3,2 gr
B105	12"	30 cm	15 L	3,6 gr
B120	14"	35 cm	24 L	5 gr
B250	24"	60 cm	114 L	24 gr
B350	36"	90 cm	380 L	45 gr

Metallic balloons are slightly smaller due to their latex composition.  
 The specifications of BELBAL balloons are measured in lab conditions and can differ as environmental conditions change.
